

Unatek Launches First World Summit on Intrusion Prevention, May 8-9, 2007

Marcus Ranum, a Visionary and World-Renowned Expert to Keynote at the Summit

Largo, Maryland – August 10, 2006

Unatek IT Security Conferences will host the first World Summit on Intrusion Prevention (WSIP) & Exhibition on May 8th and 9th, 2007 at the Hilton Columbia and Inner Harbor in Maryland, USA. The conference will attract a mix of corporate executives, government leaders, and top information technology and business professionals. The two-day conference will cover a range of security topics, including: The effectiveness of IPS products, Deployment and implementation options, Intrusion prevention in wired LAN enterprise systems, Intrusion prevention in wireless LAN (WLAN), Defining wireless perimeter(s), Convergence of intrusion prevention technologies for wired and wireless media, Complex issues in IPS/IDS vrending, Product maturity, Prospects and emerging trends and the challenges ahead.

The plenary keynote will be delivered by Marcus Ranum, a world renowned expert and pioneer of many IT security technologies. And the conference highlights will include a debate by the CTOs of leading IPS Vendors.

In addition to the conference, approximately 30 vendors will demonstrate their latest solutions. Other activities include hands-on demos, chalk talks, and birds-of-a-feather sessions.

The Summit details are available at: www.unatekconference.com.
